

ICC Region VI

2021 ICC Group A Code Development Cycle Region Desired Outcome

The ICC Region VI Code Development Committee has completed the review of the Code Change Proposals for the ICC Group A code development cycle. The position identifiers indicate the desired Final outcome of the code change.

The opinions within this document have been prepared by the ICC Region VI code development team which is a make-up of code professionals within the New England Region. Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont representatives have met weekly for the past year to review and prepare a guide to follow with our opinion on the following proposals. The recommendations within reflect careful consideration by this group and, as such, represent Region VI's view at this time. This document is not intended as a substitute for your reviewing and assessing the actual proposals and public comments as published by ICC, and we encourage your individual full review. It is not intended to substitute your personal review and individual voting, but to give you an opinion from our team and how we stand on the matters at hand at this time.

Legend	
Disapproved	To turn down the proposed change
As Submitted	Accept the proposed change as originally submitted
AMPC1	Accept the proposed change as modified by Public Comment 1
AMPC2	Accept the proposed change as modified by Public Comment 2
AMPC3	Accept the proposed change as modified by Public Comment 3
